- _____

EPIPEN®
EpiPen® Auto-Injector 0.1/0.5mg

user guide

1 Pull off the blue safety release cap.

2 Swing and firmly push the orange tip against the outer thigh so it clicks. HOLD on thigh for approximately 10 seconds to deliver the drug.
Please note: As soon as you release pressure from the thigh, the protective cover will retract.

Do not allow the child to rub the injection site or massage the injection site. Do not allow the child to walk, run, or play for at least 10 minutes after the injection. Do not allow the child to eat, drink, or use the bathroom for at least 10 minutes after the injection.

3 Seek immediate emergency medical attention and be sure to take the EpiPen Auto-Injector with you to the emergency room.

Call 911
